Dear Professor Lederberg,

I think we have had a combination of errors, and I apologise for my participation. I will send off under separate cover the type of coliforms you require.

I am extremely sorry that I did not write to you, before you wrote to me, to remind you that we had not settled what I was going to send you. I hope that I have not held up your work.

Kind regards,

Yours sincerely,

K.B. Rogers.
